Indraneel Chakrabarty, M.D., M.A.
Advanced & Interventional Gastroenterology
Board Certified Gastroenterology
Board Certified Internal Medicine

Indraneel Chakrabarty, M.D., M.A.

"Establishing GI Excellence, Inc. with my father has made me very proud. Patients no longer need to leave the area for higher level, high quality Gastroenterology care."

Dr. Indraneel Chakrabarty

Raised in Hemet, Indraneel Chakrabarty received his BS, Biochemistry from UCR in 1998, his MA in Medical Sciences from Boston University School of Medicine (BUSM) in 2000, his MD from BUSM in 2004, and his fellowship in Gastroenterology and Interventional Endoscopy in 2011 from Lahey Clinic. He was on staff as a Hospitalist and Teaching Associate at Massachusetts General Hospital (MGH) at Harvard Medical School. Dr. Chakrabarty is board certified in Internal Medicine and Gastroenterology.

Upon completing his education and training, Dr. Chakrabarty returned to his roots and has joined his father, Dr. Milan Chakrabarty in forming **GI Excellence, Inc.**, Southwest Riverside County's most advanced gastroenterology medical center.

He has brought notable progress to the practice with the introduction and implementation of the center's GI laboratory; and, the advancement in procedure technology. Of significance is the introduction of the 1.23 million pixel power endoscopic i-Scan technology. With these additions, GI Excellence, Inc. has continued to grow with new physicians and services.

Dr. Chakrabarty is known throughout the region for his expertise in advanced and interventional gastroenterology. These are highly specialized procedures performed by specially trained and experienced gastroenterologists to prevent, detect, diagnose, and treat complex conditions such as Barrett's esophagus, liver and biliary disease, pancreatic cysts, gastrointestinal bleeding, and gastrointestinal cancers.

He has had several honors including donations made on his behalf to Lahey Clinic from patients because of his warm personality, compassionate care, attention to detail, and ability to listen. Dr. Chakrabarty was honored to be asked by leading authorities from Harvard Medical School to write chapters in medical textbooks. He has performed basic science research in diabetes, colon cancer, and pancreatic cancer.

He also has strong relationships with local Universities and liver transplant centers.

A fan of cars, art, and sports; he had aspirations of becoming a professional formula one driver. He loves painting and drawing, martial arts and weight training.
